

Global Foundation for Girls has had an incredible year with substantial grantmaking from our Family Fund, the launch of our Birth Justice Institute and the recent Family Justice Convening, we have been busy.

We recently launched our Strategic Plan process and plan to take an intentional pause so that we can spend time reaffirming our mission, strategic direction and ensuring we have sustainability in place to support our core work- Intermediary Grantmaking.

During the pause: if any organization would like to reach out and partner with us on intermediary grantmaking projects, please contact:

globalfundforgirls@gmail.com

We look forward to continuing to serve you and our many communities in the future.

With best regards,
GFG Team
